Moein Al Bastaki

Moein Al Bastaki is a talent in magic, who specialises in big illusions and mentalism. He became fascinated by magic at the age of six when his grandfather showed him a magic trick involving coin halving. Ever since his very first encounter with magic, it became Moein's most exciting hobby. Moein's magic aims to pepper life with great fun from bewilderment and all this refuels his heart and senses. Armed with his elegant charm and sophisticated sense of humour, he never fails to leave every single spectator gasping in disbelief at his mastery of this fascinating art.
